Golden Rules for your luggage

To avoid any confusion when registering, remove the old labels stuck on your luggage.

Indicate clearly your name and address inside and outside of your luggage. It is advisable to affix a distinctive sign on each luggage (sticker, ribbon) to easily locate it on arrival.

Do not carry valuable items in your hold luggage.

Keep your Medical Treatments and Prescriptions with you.

Pack fragile items carefully.

Do not accept any luggage or parcels of a third party regardless of the reason.

Never leave your baggage unattended even for a short time. They would become suspicious and would be destroyed.

Signal to the airport's Officials any abandoned baggage or package.

The size and weight of baggage are generally limited. Check with your Airline.

Beware, these limits may vary depending on the company: Be careful if you have correspondences.
