INITIAL TRAINING

The Academy aims primarily to train managers in the Aerospace sector.

We distinguish, however, three cycles of basic education :

Engineering Cycle ;
Master Degree in Air-traffic Management ;
Master Degree in Electronics Aviation Safety.

ENGINEERING CYCLE

The Academy offers modular courses, semi alternatively to form high level Aeronautical engineers.

They are able to integrate quickly into the Aviation sector and to adapt to the more advanced techniques as well as to predictable technological changes.

Duration of the training

3 years

Conditions d'accès

Candidates from preparatory classes Engineering schools

Jobs targeted

Engineers in the aerospace sector (ONDA, Civil Aviation Directory, FRA, RAM.....);
Related Sectors Engineers (Telecommunications, Computing,Electronics)

MASTER CYCLE

Duration of the Training

2 years

Access Conditions

scientific or technical license + contest.

Jobs Targeted

Electronics Aviation Safety and Air-traffic Management
