## Regulations National

The Office of Casablanca Airport (O A C) was established in 1980 under the 25-79 Law introducing the concept of the autonomy of Airport management and the implementation of a business structure.

In1990, the 14-89 Law ruled on its transformation into the National Office of Airports (ONDA) .The Decree 89-480 was then adopted to implement the provisions of the Law 14-89.

The 47-00 Law came later to reattach the training of controllers and electronics to Aviation Safety at the ONDA.

Today, the Office has become the first independent public institution of Airport management with an industrial character.
